Short description of IPSE Programme : The name of the course is the Arts, Science and Inclusive Applied Practice. It is a two year programme for people with intellectual disabilities. It will help students build the skills needed to prepare for employment and adult life.

Detailed description of programme : Vision Statement:

Trinity Centre for People with Intellectual Disabilities (TCPID) situated within the School of Education, Trinity College Dublin aims to promote the inclusion of people with intellectual disabilities in education and society. Our mission is to enable people with an intellectual disability to develop their potential by a combination of high quality research, dissemination of new knowledge, lifelong learning and professional training. The Centre provides people who have intellectual disabilities with the opportunity to participate in a higher education programme designed to enhance their capacity to fully participate in society as independent adults.

Accessibility:

The Arts, Science and Inclusive Applied Practice course curriculum and delivery is guided by the principles underpinning Universal Design for Learning (UDL) and a continuum of support model.
